

Report builder

Turns verified findings into a shareable report.

PROCESSING BOUNDARY

Runs locally in your browser

PURPOSE OF THE SITE

This site exists to turn one question into a safe, repeatable research process. A tool result is not a verdict; the source and the human check stay visible.

WHY DID I BUILD IT?

I built this report frame so sources, observations, interpretations, and limits do not get mixed together at the end of an investigation.

SMALL ARCHITECTURE

Four parts from input to a record you can keep

Report builder

USE IT STEP BY STEP

Step 1

Prepare the material

Start with: Findings and notes

Step 2

Arrange notes by evidence role

Turns verified findings into a shareable report.

Step 3

Check the result against the source

Check whether every claim has a supporting source and a plausible alternative beside it. Do not leave an unsourced sentence as a finding.

Step 4

Download and keep the record

Keep this at the end: A shareable report

HONEST BOUNDARY

The tool organizes writing but does not approve the research. Its draft does not replace expert, legal, or editorial review.
